

Hosted application is located at this URL: <http://whentomeet.s3-website.us-east-2.amazonaws.com>

Upon clicking that link, the application will open. Follow the on screen prompts to create a meeting.

On the Meeting Page, after you enter your name, you can click on the personal time table to select available times. Other people can also go to the invite url and do the same thing. Refresh to see the availability of other members in the group time table.

To select a time click on a time in the group time table and click 'Schedule'
